"Craig and Sam in the Morning" is a popular Little Rock radio morning show hosted by Craig Morrison and Samantha Adams. Craig and Sam recently exited traditional radio and began a new venture into the exciting world of online radio.

A loyal fan base followed Craig and Sam to the Internet. A successful launch of their new online radio station produced immediate results with more than 17,000 website hits during their first month on the air. In addition to the morning show people know and love with Craig and Sam, listeners enjoy Top 40 hit music 24 hours a day. Thanks to a partnership with Live365, Craig and Sam can play today's top hits with royalties paid.

### ***How do people listen?***

1. Most people use the convenient widget at [craigandsam.com](http://craigandsam.com), which pops out and sits on the desktop. People can then work on their computers without having to keep a website open. Song info appears when songs play; sponsor logos appear on ads.
2. Cell phones. People take them everywhere! With the Live365 app, people can listen to our station on their phones. They can listen while working out, shopping, driving, etc. They can take us with them anywhere they go – with no static or signal fade.
3. Radio on TV. Most new televisions are Internet ready, but there are many devices people are using that allow any TV to play anything that streams online. Roku players, TiVo, some gaming systems and other devices provide easy access to our online radio station. Instead of getting up and turning on the radio to hear Craig and Sam in the Morning, people are simply turning on their televisions.

### ***When do people listen?***

Instead of listening for a few minutes in the car on the way to work, our stats reveal most people listen at work for several hours at a time. Online radio has a clear advantage over traditional radio. We can see exactly how many people are listening and for how long.

### ***Who is listening?***

The worldwide web does allow anyone in the world to tune in and listen to our radio station. However, Craig and Sam have continued to focus their attention on Little Rock, just as they did in traditional radio. Because of this, and because they were already very familiar to Central Arkansas, the vast majority of listeners are in the Little Rock area.

The future of radio is here! We're excited to show you how your company can join us in the cutting edge of this new era in media. Call 501-570-6060 or email [sam@craigandsam.com](mailto:sam@craigandsam.com).
